Money Orders payable at Simondium.

H. E. V. PICKSTONE & BROTHER, Ltd

SIMONDIUM

CAPE PROVINCE

SOUTH AFRICA

Every possible precaution is taken to prevent errors and to ensure that our trees are true to name and label and that same are free from pests or disease at the time of despatch, but it is impossible to give any guarantee, express or implied, in regard to any or all of the above statements. It is therefore stipulated that the following are express terms of every contract for the sale of trees:—

(b) In the event of any trees being found to be affected by pests or disease after same have been planted out, no liability whatsoever will rest upon us in that regard.

(c) In cases of orders booked for delivery more than three months ahead no liability will rest upon us in the event of failure to affect delivery on the agreed-upon date.

of failure to affect delivery on the agreed-upon date if such failure be caused by the trees failing to grow to standard size owing to adverse weather or other conditions or upon their delivery having been rendered impossible or impracticable for any other reason.

Our Nurseries are annually inspected by the Government and before despatch of any trees all reasonably possible steps are taken by us to ensure that same are free from all pests or disease. All trees at the time of leaving our premises are believed to be healthy and free from crown gall, pests or other diseases.

NOTE.—No alteration or delays will be accepted within 10 days of the date of despatch.

Terms and Conditions of Sale and General Information for Customers.

We have much pleasure in presenting you with our **Forty-sixth Annual Catalogue of Fruit Trees and Vines**, and avail ourselves of the opportunity to thank our customers for the support accorded to us during the last forty-five seasons, and shall do our best to merit a continuance of their favour and recommendation. We spare no pains and expense to produce trees and vines of the highest possible quality.

We do not sell Cheap Trees. In the long run they invariably prove dear to the purchaser. **Our Prices are reasonable**, and all care is exercised in the selection of buds and scions. We have the retention of our good name always before us. A saving of a few pence per tree now may be bitterly regretted a few years hence.

Prices are clearly stated on pages 4 and 5.

Packing is carefully done for transmission to any part of the world. A moderate charge is made. See page 5.

Orders are accepted in terms of our Conditions of Sale at any time for execution from the 20th June to 15th September. Citrus trees can be supplied at practically any time. Small orders are welcomed, and receive the same care and attention as large ones.

Alteration or delays to orders cannot be accepted later than ten days prior to date of despatch.

Cancellation of orders booked definitely cannot be accepted except in cases of extreme necessity.

Mistakes or errors should be notified to us immediately, and same will at once be rectified, in terms of our Conditions of Sale. Our aim is to satisfy you.

Complaints of any kind should also be made immediately, to enable us to have an opportunity of looking into the matter.

Responsibility for delay or loss. We must emphasize the fact that all orders are at the risk of the purchaser after being put on rail. We must not be held responsible for any loss or delay that may occur through the negligence of the forwarders, or for failure of any trees after being planted, as it must be recognised that once the trees have been placed on rail, well packed and in good condition, they are entirely beyond our control.

Substitution. Please answer questions on Order Form, and if no substitution is desired please say so.

Selection of Varieties can be left to us if desired. We are acquainted with the various districts and may be able to help you. Your confidence will not be misplaced.

Full instructions for planting accompany the dispatch of each order.

Terms. Nett Cash on receipt of consignments. Interest at the rate of 6% will be charged on all accounts not paid within three months of invoice date.

CONDITIONS OF SALE.

Every possible precaution is taken to prevent errors and to ensure that our trees are true to name and label and that same are free from pests or disease at the time of despatch, but it is impossible to give any guarantee, express or implied, in regard to any or all of the above statements. It is therefore stipulated that the following are express terms of every contract for the sale of trees:—

- (a) In the event of any trees being found to be untrue to name or label, we shall be liable only either to supply fresh trees in the place of those found to be untrue to name or label or to refund the purchase price of the individual trees in question.
- (b) In the event of any trees being found to be affected by pests or disease after same have been planted out, no liability whatsoever will rest upon us in that regard.
- (c) In cases of orders booked for delivery more than three months ahead, no liability will rest upon us in the event of failure to effect delivery on the agreed-upon date if such failure be caused by the trees failing to grow to standard size owing to adverse weather or other conditions or upon their delivery having been rendered impossible or impracticable for any other reason.

Our Nurseries are annually inspected by the Government and before despatch of any trees all reasonably possible steps are taken by us to ensure that same are free from all pests or disease. All trees at the time of leaving our premises are believed to be healthy and free from crown gall, pests or other diseases.

TO CLIENTS IN RHODESIA.

Customs Forms accompany advice of dispatch, and must be presented to your Station when trees are called for.

We have full permits for the introduction of all our trees into Rhodesia.

**TO CLIENTS IN KENYA, NYASALAND, TANGANYIKA,
MOZAMBIQUE, Etc.**

Permits to import must be obtained from the Directors of Agriculture at Nairobi, Zomba, Dar-es-Salaam, Lourenco Marques or Beira, and forwarded to us with the orders. Trees for Kenya and Tanganyika are shipped from Cape Town and accounts for freight and shipping charges will be rendered by the following mail. Trees for Nyasaland can be sent direct to Beira for trans-shipment to the Shire Highlands Railway. Trees for Katanga are sent direct by rail and trees for Ruanda-Urundi by steamer to Dar-es-Salaam.

FREE DELIVERY.

Orders for 50 or more trees or vines, no matter how many varieties or sizes, sent in one consignment, will be sent rail-age free to any railway station or railway road motor service station in the Union, including South West Africa, Swaziland and Lourenco Marques.

Rhodesian orders will also be sent carriage paid if 50 or more trees are ordered in one lot, but only to railway stations or sidings—not to road-motor stations—any railway station to the Congo Border and Beira.

All trees will be sent by goods train. If passenger train is desired, customers must pay the difference between the two rates.

Small Orders of Fruit Trees can be sent by Parcels Post quite satisfactorily.

50 or more trees or vines will be sent postage free by Agricultural Parcels Post within the Union and Basutoland only. All other postage must be paid by consignee.

For Parcels Post orders we naturally have to select the lighter trees, so that clients obtaining their trees by post must not expect to receive as large a tree, either in first or second sizes, as they would receive were the trees sent by rail. Parcels Post is very well suited for the transportation of small orders for Citrus trees.

RAILAGE.

Clients often hesitate to order our well-known trees, especially when resident at a great distance from our Nurseries, fearing the transport charges will be prohibitive. As noted in our Free Delivery Clause, rail-age is paid in the Union and neighbouring countries on orders for 50 or more trees. Less than this number, consignments are sent carriage forward. The approximate rail-age by goods train on an order of say 15 to 40 trees is only about 1/- to 1/6 to any place in the Union, and to Rhodesia and South West Africa probably 2/- to 5/-, dependent on distance.

PRICE LIST.

DECIDUOUS TREES:—

Apples, Pears, Peaches, Nectarines,
Apricots, Plums, Prunes, Cherries,
Almonds, Quinces, Figs, Walnuts
and Pomegranates.

	Under 10 Trees	Over 10 Trees	Over 100 Trees
FIRST SIZE	2/3	2/-	1/6 per tree
SECOND SIZE	1/9	1/6	1/3 "

CITRUS- and OLIVE TREES:—

Oranges, Lemons, Grape Fruit,
Limes, Citrons, Loquats and Olives

FIRST SIZE	4/-	3/6	3/- per tree
SECOND SIZE	3/-	2/6	2/3 "
FIRST SIZE	4/6	4/-	3/6 per tree
SECOND SIZE	3/6	3/-	2/9 "

Nartje Trees

EXTRA SIZE TREES: Deciduous 2/9 each; Citrus and Olives 5/- each; Nartjes 5/6 each, any quantity.

VINES 1/- each, £2 for 50, £3 for 100. Extra size 1/6 each.
LOGANBERRIES and GRENADILLAS 1/- each, 30/- for 50, £2:10:0 per 100.

SPECIAL COMMERCIAL RATES FOR ORDERS OF 25 OR MORE TREES OF ONE NAMED VARIETY,
for example 25 or more Duke of York peach trees, or 25 or more Washington Navel orange trees, etc.

	SIZE 1	SIZE 2
DECIDUOUS TREES	1/3	1/- per tree.
CITRUS- and OLIVE TREES	2/9	2/- "
NARTJE TREES	3/3	2/6 "
VINES	£20 per 1000.	

These Special Prices do not apply to Walnuts, Cherries or Pomegranates.

SPECIAL QUOTATIONS GIVEN FOR BULK ORDERS EXCEEDING ONE THOUSAND TREES.

We usually have Third Size Trees, in both Deciduous and Citrus — Prices 25% below 2nd size prices.

SMALL GARDEN ORDERS.

SELECTED BY US.

We will deliver postage or railage free, anywhere in the Union,
small lots of our Famous Trees as under:—

		Extra Size	1st Size	2nd Size
A.— 6 Deciduous Trees		18/-	15/-	12/-
12 " "		35/-	25/-	20/-
B.— 6 Citrus Trees		33/-	27/-	21/-
12 " "		65/-	47/-	35/-
C.— 6 Vines, Loganberries or				
	Grenadillas	11/-	7/6	—
12 " "	" "	19/-	13/-	—

Selection will be made from the most suitable varieties for your District.
When ordering mention Garden Order A, B, or C, and send remittance.

South West Africa 2/6 extra. Rhodesia 5/- extra.

PACKING CHARGES.

DECIDUOUS TREES:	Per 100 trees		3/-
	Per 1000 trees		20/-
	Small Bales	 each	1/-

VINES:		per 100		2/-
--------	------	---------	------	-----

CITRUS TREES: Packing charged according to number of crates
used, and at less than cost:—

		Extra size	Containing 1st size	2nd size	3rd size	
Full Crates, 4/- each		32	50	56	60 trees or more.	
$\frac{3}{4}$ " 3/- "		24	36	45	45 " "	
$\frac{1}{2}$ " 2/6 "		16	25	30	30 " "	
$\frac{1}{4}$ " 1/9 "		8	10	14	15 " "	

Very small lots are packed in bales, at 1/- per bale, but when necessary
to pack in a small crate we charge 2/6 for the crate, as more moss, which is
expensive, is required when the crate is not filled with trees.

PACKING MATERIALS NOT RETURNABLE.

TIME OF PLANTING:

Deciduous Trees and Vines: 20th June to 15th September.

Citrus Trees: Any time, dependent on local conditions. July and August are,
however, the best months.

INFORMATION REGARDING TREE SIZES.

The First Size Trees are over 3 ft. in height. The Second Size Trees are
over 2 ft. in height. This means that in the stronger growing sorts the height
is very much more. The stated sizes of 2 ft. and 3 ft. apply mainly to apples
and pears. In the case of stone fruits and Citrus these sizes are usually
very much exceeded. For example, the first size Citrus before topping would
stand round about 5 ft. In practice, our grading, following the example of
the American Nurseries, is done more by girth than height. Habit of growth
must also of course be taken into consideration. In a strong growing variety
such as Grape Fruit, the first size would be of much greater girth than a
weak growing variety such as Nartje. In the instance of Figs and Walnuts,
the respective heights are usually considerably below the above measure-
ments. Vines are strong and mainly worked on two year old roots. In the
instance of two year old branched Pear and Apple trees, the heights may
be less.

DESCRIPTION OF VARIETIES.

APPLES.—On Blight-proof and Seedling Stocks.

A number of sorts on Selected Seedling Stocks. — See Order Form for varieties.

APPLES ON SELECTED SEEDLING SWEET STOCK.—We are now propagating extensively the principal commercial varieties of apples on selected seedling stock. In parts of the country where the woolly aphid is under control, many are preferring to have their apples on this stock as the trees make a stronger growth.

WE SPECIALLY ADVISE APPLES ON SEEDLING STOCK FOR KENYA.

EARLY VARIETIES:

ALMA.—Same as Lady Carrington.

CELLINI.—Cooking. Yellow and red. Free grower and excellent bearer.

CHRISTMAS. — Old Colonial sort, also known as New Year or Lady Apple. High colour. Good bearer.

EARLY HARVEST. — Very early. Pale yellow colour.

LADY CARRINGTON.—A first class dessert apple, ripens with Christmas. Medium size, conical, covered with red, with dark red cheek. A good market variety.

RED ASTRACHAN. — Red. Free grower and bearer.

SHARP'S EARLY.—Yellow with red and crimson stripes. Blight-proof. Heavy bearer. Highly recommended.

WILLIAM'S FAVOURITE. — Red. Good size. Blight-proof. Highly recommended.

MID-SEASON VARIETIES:

BLenheim ORANGE PIPPIN. — Large. Yellowish, red streaked.

EMPEROR ALEXANDER.—Cooking. Very large. Greenish yellow and red. Bears well.

GRAVENSTEIN. — Large. Greenish yellow streaked with red and orange. Bears well. Cooking and market.

JONATHAN.—Yellow and red. Upright grower. Very productive.

LATE VARIETIES:

BALLARAT SEEDLING.—Cooking. Large. Green and yellow with red cheek.

BEN DAVIS.—Medium to large size. Yellowish, splashed with red. An abundant bearer.

CLEOPATRA.—Medium size. Yellow and green. Very heavy cropper.

CLIFF'S SEEDLING.—Upright grower. Blight-proof. Highly coloured.

COMMERCE.—Red. Round. Large. Heavy bearer. Highly recommended.

COX'S ORANGE PIPPIN.—General favourite. Medium size. Golden with red blush. Ripens March and later.

DELICIOUS. — Red and yellowish. Free and hardy grower. Bears well. Highly recommended.

ESOPUS SPITZENBERG.—Red. Medium size, slightly conical. Bears well.

GEORGE APPLE. — Very large. Greenish yellow and red. Medium late. Bears well. Table and cooking.

GOLDEN DELICIOUS.— Similar to Delicious, but golden yellow colour when ripe.

GRANNY SMITH.—Large and juicy. Greenish yellow. Much esteemed.

KING OF TOMPKINS COUNTY.—Large size. Striped yellow and red.

LALLA. — Similar to Delicious but red entirely. An excellent apple. Sometimes known as Red Delicious.

LAXTON'S.—Popular English variety. Does well here. High colour. Good keeper. Strongly recommended.

LONDON PIPPIN.—Large, roundish, slightly flattened. Greenish yellow.

LORD WOLSELEY.—Greenish yellow. A dessert or cooking apple. Nearly blight-proof.

MACKINTOSH RED. — A well and favourably known American export variety. A likely sort for building up our own export trade.

MISSOURI PIPPIN. — Large size. Pale, whitish-yellow, splashed red.

APPLES.—On Blight-proof and Seedling Stocks.—(Contd.)**LATE VARIETIES:**

MONMOUTH PIPPIN.—Large. Pale yellow with red blush. Free grower and productive.

NICKAJACK.—Large, round. Yellowish with red stripes. Recommended for Eastern Coast Districts.

NORTHERN SPY.—Large. Greenish-yellow with red cheek next sun. Blight-proof.

OHINEMURI.—Known as Munro's Favourite in Australia and Dunn's Seedling in England. Flattened. Skin bright yellow clouded brown. One of the best all round varieties. Highly recommended.

PRINCE BISMARCK.—Large. Yellow with red streaks.

REINETTE DU CANADA.—Large. Cooking and dessert. Greenish yellow covered with brown russety dots. Approved throughout Africa. Recommended.

RHODE ISLAND GREENING.—Large roundish. Dark green becoming yellow.

ROKEWOOD.—Yellow, covered with red. One of the best late keepers. Recommended.

ROME BEAUTY.—Large, roundish. Yellow and red. Bears very young. Cannot be too highly recommended.

VERSVELD'S.—Large. Greenish-yellow streaked red. Nearly blight-proof. Very highly recommended.

WEMMER'S HOEK.—Hardy Colonial variety. Bears tremendously. Medium size. Red.

WHITE WINTER PEARMAIN.—Medium to large. Pale yellow with brick red cheek. Nearly blight-proof. Does well in the Eastern Province. Recommended.

WILLIAM ANDERSON.—Very pretty dessert apple. Medium size. Good flavour.

WINE SAP.—Yellow, overspread with red. Medium size. Good grower and free bearer.

YATES.—(York Imperial).—Medium. Yellow with red shades. A beautiful apple but smallish.

YELLOW NEWTON PIPPIN.—Large, roundish, flattened in shape. Brownish with red cheek.

PEARS.—On Pear Stocks.**EARLY VARIETIES:**

CLAPP'S FAVOURITE.—Large. Resembles Bon Chretien but a week earlier.

DECEMBER.—Earliest pear known. Prolific bearer. Small.

JARGONELLE.—Medium size. Good early dessert variety.

SWEET SAFRAAN.—The well known old Dutch variety.

MID-SEASON VARIETIES:

BEURRE D'ANJOU.—Ripens February. One of the best American export varieties.

BON CHRETIEN.—The Williams Pear of England, and the Bartlett of the United States. The most famous pear in the whole world. Suitable for all purposes. The best drying and canning sort.

BEURRE BOSC.—Large. Free grower and prolific bearer. Does well here. Excellent keeper.

BEURRE HARDY.—Large, handsome. Good keeper. Popular export sort.

BEURRE SUPERFINE.—A very fine pear. Large. Bears and grows well.

DOYENNE DU COMICE.—Large. Delicious. Rather a shy bearer. Fetches highest prices in all markets. Stores well.

FERTILITY.—Very prolific. Medium size.

LE CONTE.—Large yellow pear. Medium early. Recommended for tropical climates.

LOUISE BONNE.—Medium size. Bears in clusters. Prolific. Excellent shipper.

PEARS.—On Pear Stocks.—(Continued).**LATE VARIETIES:**

BEURRE DIEL.— Large, handsome dessert pear. Good keeper and shipper.

EASTER BEURRE. — Very late. Large size. Excellent keeper.

FORELLE.— Known as the Trout pear, owing to its brilliant markings. Medium size. Bears young. Excellent keeper.

GANSELL'S BERGAMOTTE.—Medium sized dessert pear of highest merit.

GLOU MORCEAU.— Above medium size. Excellent shipper and keeper.

JOSEPHINE DE MALINES.— Very late. Good size. Highly recommended for export.

KEIFFER HYBRID. — Large size. Excellent canning pear. Thoroughly recommended. Excellent keeper. Also suitable for tropical areas.

MAGNATE.—Large. Strong and free grower.

PACKHAM'S TRIUMPH. — Prolific bearer. Good size. Bears early.

VICAR OF WINKFIELD. — Very large stewing pear. Good keeper and storer.

WINTER NELIS. — Medium size russety pear. Popular export sort. Keeps well.

WINTER SAFRAAN. — The well-known old Dutch variety. Stores for several months.

PEARS.—On Quince Stocks.

In both Europe and America, Pear trees are being propagated very largely on Quince stock, and there are certain definite advantages in this propagation, perhaps not so much for commercial orchards excepting where conditions are favourable, but for small plantations and gardens there are the following advantages:—

1. Being permanently dwarfed the pear tree occupies little space and can be planted eight or nine feet apart.
2. The tree starts bearing very much sooner. For example, a tree on free growing stock which comes into bearing six years after planting, might be expected when on quince stock to start bearing at three years.
3. The tree being dwarfed, the crop is more easily handled and the tree and fruit more easily sprayed. Where planted for commercial purposes it has been found that the production per acre from dwarfed trees is at least equal to the free growing trees.

In the cases of these dwarf pears grafted on quince stock, the respective sizes of first size and second size trees will be rather less than when grafted on standard stock.

The prices will be the same as for 1st or 2nd sized Deciduous trees. We are able to raise the stocks for these dwarf trees most successfully at our George Nurseries.

This year the following varieties will be stocked:—

BON CHRETIEN (Williams).—
BEURRE HARDY.—
DECEMBER.—
DOYENNE DU COMICE.—

KEIFFER HYBRID.—
LOUISE BONNE.—
PACKHAM'S TRIUMPH.—

PEACHES.—On Peach Stocks.

FREESTONE.

EARLY VARIETIES:

BRIGGS RED MAY. — Medium to large. White skin with red cheek. A good shipper.

DUKE OF YORK.—Highly coloured. Good size. Highly recommended.

EARLY ALEXANDER. — Greenish white nearly covered with red. A standard early.

EARLY DAWN.—Ripens a few days before Inkoos. Has the advantage of a high colour. Good flavour.

EARLY RIVERS.—Large. Pale yellow with red cheeks. Heavy bearer.

HIGH'S EARLY CANADA.—Whitish yellow with red cheek. Medium size. Bears well.

INKOOS. — Good flavour. Medium size. Ships well and is highly recommended.

KING EDWARD VII.—Valuable for its extreme earliness. Medium size.

LE VAINQUEUR.— Large. Creamy white with blush cheek. Ripens before Alexander.

MAYFLOWER. — Fair size. High colour. Ripens 14 days before Alexander. Good.

MOUNTAIN ROSE.—Good size. Fair colour. Ripens after Alexander. Satisfactory here.

OKLAHOMA QUEEN.—Good size and appearance. Of Chinese strain, but likely to do well anywhere.

WATERLOO.— Above medium size. Light red cheek, dark next sun. Very early and good for export.

MID-SEASON VARIETIES:

BABCOCK.—A new freestone from California. Medium. Highly coloured. Good for warm areas.

CONSTANTIA.— January. Good appearance and flavour. Recommended.

CRIMSON GALANDE.— Large. Almost all over dark red. A very excellent sort.

Dr. HOGG.— Medium size. Yellow with red cheek. Does well here.

EARLY CRAWFORD.— Very large. Yellow with red cheek. Splendid for market, canning and drying.

ELBERTA.—Large. Yellow with red cheek. Our best yellow. Suitable for canning, drying and export.

FLORIDA CRAWFORD.—Light yellow with red cheek. Large size. Does well in the Transvaal, also in tropical areas.

FOSTER.—Large. Deep orange with red cheek. Good for drying and the market.

J. H. HALE.—Larger than Elberta. Round. Golden yellow overlaid with carmine. Carries well and good for canning.

LATE CRAWFORD.—Similar to the Early Crawford, but a little later. Suitable for market and drying.

MAMIE ROSS.—Very large. White. Does well here. Recommended for local markets and home use.

MARY'S CHOICE.— Large. Yellow with red cheek. Suitable for market, canning and drying.

MILLION DOLLAR.—Same as J. H. Hale.

MUIR.— Very large. Yellow. One of the best drying peaches.

PEREGRINE. — Large. Brilliant crimson. Excellent for export. Highly recommended.

RIMER. — A most excellent mid-season freestone. Similar to Schoongezicht.

SCHOONGEZICHT. — An old Cape variety of delicious flavour and excellent colour. Good bearer and export sort.

PEACHES.—Freestone Varieties.—(Continued)**LATE VARIETIES:****DAGMAR.** — Large. Deep crimson.**GLADSTONE.**—Very large. Pale with red cheek. Does very well here.**NECTARINE PEACH.**— Good size. High colour. Skin smooth like the Nectarine.**NEWHALL.**— Very large. Skin yellow with deep red cheek.**PUCELLE DE MALINES.** — Very large. Well coloured. Valuable for export. Recommended.**SALWAY.**—Large. Yellow with crimson cheek. Very late. Suitable for market and drying.**SEA EAGLE.**—Large. Greenish-white with fair colour.**THOMAS RIVERS.** — Large, round with bright red cheek. Good flavour.**CLINGSTONE VARIETIES.****GAUME.** — Mid-season. Good commercial canning variety. Fruit large, yellow. Vigorous grower and good bearer.**GEORGE'S LATE CLING.**— Large. White flesh. Yellowish-green with red cheek. Late. Good for markets.**GOODMAN'S CHOICE.**—Mid-season. Large. Yellow. Highly recommended for canning.**HAUSS.**— Early mid-season. Ripens after Tuscan. Yellow. Good canning variety.**KAKAMAS (Collins).**—The new cling peach originating in Kakamas. Late. Strong grower. Stated to be a heavy regular bearer and greatly favoured by the canneries. Highly recommended.**LEMON CLING.**—Mid-season. Large. Skin clear yellow. A good canning peach.**PALORA CLING.** — Early. Yellow with slight blush of red. Highly recommended for canning. Sturdy grower. (Sold out for 1940 Season).**PEAK.**—Mid-season. Large. Yellow. Excellent quality.**PHILLIP'S CLING.** — A fine large yellow cling. Late. Much favoured by canners.**PULLAR'S CLING.**—Very large and highly coloured. Late. One of the best canning peaches.**RED BIRD CLING.** — Early. Skin creamy white, with red cheek. Excellent quality.**SELLER'S GOLDEN CLING.**—Very large. Yellow with red cheek. Suitable for market and canning.**SIMS.**— Large. Yellow. Round. A little earlier than Phillip's Cling. Classed with the best canning varieties.**TUSCAN CLING.**—The earliest cling. Suitable for canning. Very large. Yellow flesh.**VAN RENSBURG.**—The latest peach. Ripens in May and April. Yellow and rather tough.**WHITE PARVIE.**—Mid-season. The well-known old Cape variety. Suitable for canning.**SUB-TROPICAL VARIETIES.**

(Suitable for Low-Veld and Hot Climates.)

FREESTONE.**ANGEL.**— Large. Yellow with red cheek.**BROOK.**— Large. Yellow with deep blush. Resembles the Foster and Crawford families.**IMPROVED WALDO.**—Medium size. slightly flattened. Cream with red blush.**KILLIEKRANKIE.** — Medium to large. Yellow with red cheek.

(Babcock, Florida Crawford and Oklahoma Queen can also be planted in hot areas).

PALLAS.—Good size, nearly round. Deep red with light yellow at base.**PEENTO.**—The flat peach of China. Ripens very early. Quality poorish.**SHACKLEFORD.**— Large. Greenish with red cheek.**WALDO.**—Medium size. Creamy with red blush.

NECTARINES.—On Peach Stocks.

EARLY VARIETIES:

EARLY RIVERS.—Large. Dark violet-red. A great success here.

LATE VARIETIES:

NEWTON.—Large. Fine colour. Rich flavour.

STANWICK.—Large. Pale green and red next sun. Very popular.

MID-SEASON VARIETIES:

ALBERT.—Large. Pale cream with carmine blush. Stores well.

DE COUSA.—Large with high colour. Does well in sheltered spots.

GOLDMINE.—Large. Bronzy red. A great success in Africa. One of the best sorts.

VICTORIA.—Large. Pale green with red next sun. An excellent sort.

APRICOTS.—On Peach Stocks.

ALPHA.—One of the earliest sorts. Fruit medium to large.

BLENHEIM.—Of good size. Suitable for drying and canning as well as markets. Does well.

BULIDA.—Flesh very firm, aromatic. Very suitable for export. Early. Also worked on Mariana plum stock.

EARLY CAPE.—The earliest. Propagated from the well-known Western Province variety. Needs no recommendation.

MOORPARK.—The best and largest, but rather a shy bearer. Does well in Transvaal and Natal.

OLD CAPE.—Good for all purposes. Heavy and regular cropper.

ROYAL.—The favourite for drying and general purposes. The most popular Apricot in Africa.

TILTON.—Rather late. Good size and colour. Excellent for all purposes.

PRUNES.—On Peach Stocks.

CALIFORNIA D'AGEN.—The genuine French Prune of commerce. Also on Plum stock.

FELLENBERG.—The commercial prune of Oregon. Medium size. Slightly acid.

GIANT FRENCH.—Very big fruit. Not suitable for drying. Good for market and shipping. Ripens same time as D'agen.

SUGAR.—Large and of high quality.

TRAGEDY.—Very early. Medium size.

PLUMS, (European Varieties).

On Mariana Plum Stocks.

EARLY VARIETIES:

EARLY GOLDEN DROP.—Very popular early yellow cherry plum. Small.

PRIDE OF ENGLAND.—Medium. Dark purple. Free grower and good bearer.

RIVER'S EARLY PROLIFIC.—Medium size. Purple.

MID-SEASON VARIETIES:

CZAR.—Large. Red to black. Cooking.

DAMASK.—Large. Purple. Good bearer.

DIAMOND.—Large. Black. Heavy cropper.

GREENGAGE.—Of good repute everywhere.

HAHN'S D'ALMAGNE.—Large. Dark purple. A good bearer.

POND'S SEEDLING.—Large. Dark red. A beautiful plum.

PRESIDENT.—A variety coming into great favour. (On Peach stock only).

LATE VARIETIES:

REID'S LATE GEM.—Very late. Bears heavily. Does well here.

PLUMS (Japanese Varieties).

On Mariana Plum Stocks.

THE MOST SUITABLE FOR AFRICAN CONDITIONS.

(A few sorts also on Peach Stocks).

EARLY VARIETIES:

ABUNDANCE. — Medium. Yellow with red. Bears as its name implies.

BEAUTY.—Large. Bright red.

FORMOSA.—Extra large. Very early but a rather shy bearer.

METHLEY.—Small. Dark red. Heavy bearer. Suitable for markets and jam. Red flesh. (Also on Peach Stock).

SANTA ROSA. — One of the best earlies. Large. Red with red flesh. Strongly recommended. (Also on Peach Stock).

MID-SEASON VARIETIES:

APPLE.—Large. Of the blood class.

BURBANK.— Medium. Cherry red. Enormous cropper. Suitable for local markets, jam and canning. (On Peach Stock only).

CHALCOT.—Large, crimson.

ELDORADO. — Good size, round. Colours up when still quite hard. When ripe is nearly black. (On Peach Stock only).

GAVIOTA.—Good size. Yellow. Good quality. Regular bearer. (Also on Peach Stock).

OCTOBER PURPLE. — Late. Mid-season. Medium to large. Yellow.

SATSUMA.—(Blood Plum).— Large. Dark red. Flesh dark purplish red. Suitable for markets and canning, and good for jam. (On Peach Stock only).

SHIRO SMOMO. — Large. Yellow. Greengage type.

WICKSON. — Large. Whitish-green with red colouring. A very popular plum. (Also on Peach stock).

LATE VARIETIES:

KELSEY.— The latest and largest. Yellow nearly overspread with red. Good for the market and the best for drying. (Also on Peach stock).

Japanese Ornamental Plums.

VESUVIUS.—Bright red and brown foliage.

PISSARDII.—Coppery-brown foliage.

CHERRIES.—On Mahaleb Cherry Stocks.

BING. — Very large. Dark red to black.

BLACK BIGGAREAU.—Large. Dark red to black.

BLACK TARTARIAN.—Large. Dark red to black. A favourite. Recommended.

EARLY RIVERS. — Medium. Red. Rather tart. Ripens a week before others.

ELTON. — Medium size. Yellow to red. Early mid-season.

EMPEROR FRANCIS.— Good size. Bright red to yellow.

GIANT HEIDELFINGER. — Very large. Dark red to black. Recommended.

GOVERNOR WOOD.— Very prolific. Small to medium. Yellow to bright red.

MONSTREUSE DE MEZEL.— Good size. Bright red to yellow. Recommended.

NAPOLÉON BIGGAREAU. — Very large. Yellow with red blush. Recommended.

ALMONDS.—On Peach Stocks.

(Several varieties of Almonds should be planted in close proximity to ensure thorough cross-fertilisation. The more sorts planted the better).

BRAND'S JORDAN. — Similar to Jordan, but soft shell.

BRITZ.—Hardy and a heavy bearer. Soft shell. Said to be self-fertile.

DRAKE'S SEEDLING. — A late bloomer. Soft shell. Bears heavily and early.

I.X.L.—Large nuts. Soft shell.

JORDAN.— The largest and most celebrated almond. Hard shell.

NE PLUS ULTRA. — Very large. Soft shell. Bears heavily.

NONPAREIL.—Medium size. Regular bearer. Soft shell.

PAPER SHELL.—Bears well. Very thin shell, but smaller than Nonpareil.

TEXAS PROLIFIC.— Late bloomer. Heavy bearer. Soft shell.

QUINCES.—On Quince Stocks.

BORRIE. — Soft flesh. Completely yellow. An old favourite.

CAPE SELECTED.— A South African variety, selected by ourselves.

MEECHES' PROLIFIC. — Large. Golden yellow. Bears early. Very productive.

ORANGE.—Large, roundish. Golden yellow. Productive.

PORTUGAL.— Large. Yellow. Pear shaped.

RAE'S MAMMOTH.— Resembles the Orange variety, but is larger.

VAN DIEMAN.—Above medium size. Greenish yellow. Sub-acid. Bears well.

FIGS.

ADAM.—Skin brownish. Flesh pink to red. Medium to large. Heavy bearer.

BLACK MISSION.—We have only a few trees of this variety.

CALIMYRNA.—Commonly called the Smyrna. Greenish to light yellow. Flesh pink.

CAPE WHITE. — Small, roundish, flat. Pale green. Flesh yellowish brown. The best for jam and suitable for drying.

CASTLE KENNEDY.— Very large. Pale brown mottled with grey. Flesh pale, slightly red. Not recommended in cold districts.

EVA.—Below medium size. Flavour excellent. Said to be the best for konfyt.

KADOTA.—Medium size. Light green. Sweet. Nearly seedless.

NEW BRUNSWICK.—We have only a few trees of this variety.

NEGRO LARGO.— Very large. Jet black. Flesh pale red.

TIGER.— Also known as Panachee. Medium size. Yellowish, striped with bands of green. Flesh bright rose colour. A prolific bearer.

WHITE ADRIATIC. — Medium to large. Green turning yellow. Flesh pink to red. Good eater and drier.

WHITE GENOA.—Medium size. Skin greenish brown. Flesh pale red. An excellent sort.

LOGANBERRIES.**WALNUTS.**

The Common English variety.

GRENADILLAS.

Strong Plants.

POMEGRANATES.

We have a small stock of these.
Prices same as for Deciduous trees.

LOQUATS.

Cape Variety, prices as for
Citrus trees.

VINES.—On Phylloxera-proof Stocks.**EARLY VARIETIES:**

BLACK PRINCE.—Large. Hardy.
Dark purple to black.

RED MUSCADEL.—Small, round
berries. Very early. Red.

WHITE MUSCADEL.—Small, round
berries. Very early. White.

MID-SEASON VARIETIES:

ALPHONSE LAVALLE.—Large
black berries.

CRYSTAL.—Large round berries.
White. Good flavour. Very popular.

GROS COLMAN.—Very large berries
Black. A most handsome variety.

HERMITAGE.—Medium to large,
black oval berries. Good flavour.

MUSCAT HAMBRO.—Large oval
berries, dark purple to black. Ex-
quisite flavour. Recommended for
home use, also local markets.

PRUNE DE CAZOULS.—Medium
size, black oval berries. Firm flesh,
thick skin. Latish.

RIBIER.—Large black berries. Good
flavour. Suitable for export.

ROSAKI.—Similar to Waltham Cross.
Very good for export and raisin
making.

ROSE CHASSELAS.—A fine grape.
When fully matured the berries are
red. Keeps and carries well.

WALTHAM CROSS.—A handsome
white grape, becoming a pale gold-
en yellow. Berries large. Very
good for export and raisin making.

LATE VARIETIES:

BARBAROSSA.—Large black round
berries. Tough skin. A good
carrier.

BARLINKA.—Medium size oval
berries of deep purple. Very late.
Carries well.

FLAMING TOKAY.—Large berries.
Salmon pink to a reddish colour.
Recommended for coast areas.

LADY DOWNES SEEDLING.—A
round, black grape. Berries large.
Handsome. A good carrier.

RAISIN BLANC.—Large, white
berries. Good flavour and very
popular.

**RED HANEPOOT AND WHITE
HANEPOOT.**—Very popular and
well-known sorts. Can be used for
all purposes.

CITRUS TREES.

IMPORTANT NOTICE.—Our Citrus Trees of all varieties are worked from strains personally selected by us in California many years ago, and bud selection has been systematically carried out.

All our trees are grown in the Nursery to a single stem and each tree is trained to a stake. No expense is spared upon them.

All our citrus trees are worked on Rough Lemon Stocks.

With our special method of packing, trees carry very successfully to far distant places with a minimum of loss.

ORANGES.

ADDOROSA (Pickstone's Jaffa). — Medium to late. Thornless. Very heavy and full flavoured. Almost totally seedless.

CLANWILLIAM SEEDLING—Large and sweet. Ripens mid-season.

DU ROI.—In our opinion absolutely identical with Valencia Late. Said, however, to ripen shortly before that variety.

JOPPA. — Oblong. Almost totally seedless. Thin rind. Very juicy and sweet. Mid-season.

MEDITERRANEAN SWEET. — Thornless. Very productive. Fruit smallish, oval and inclined to thick skin. Soft, juicy and very sweet. Mid-season to late.

NAVELENCIA.— Is a sport of the Valencia Late. Fruit of good size, smooth and thin skinned. Bears young.

PAPER RIND ST. MICHAEL.— A very heavy bearer. Fruit small, round, very solid and heavy. A general favourite. Mid-season.

RUBY BLOOD. — The best of the Bloods. Medium size, nearly round. Follows the Navel.

THOMPSON'S IMPROVED NAVEL. Closely allied to the Washington Navel, but a few days earlier.

VALENCIA LATE (Pickstone's). — Our special strain is almost seedless. Season latest. Flesh very rich colour. Skin light colour. A very valuable orange.

WASHINGTON NAVEL (Pickstone's) The true Navel selected by us in California many years ago. The best early orange, too well-known to need any special description.

LEMONS.

EUREKA.—Tree nearly thornless. A prolific bearer. Fruit of the best quality. A general favourite.

GENOA. — Also known as Lisbon. Medium size, long oval. Thin and smooth skin. A first class lemon in every respect and bears abundantly.

VILLA FRANCA.— A strong growing variety. Practically thornless. Fruit is oblong, juicy and nearly seedless. Sweet rind.

LIMES.

TAHITI.—Fruit nearly as large as a lemon. Very juicy and of the best quality.

CITRONS.

CITRON OF COMMERCE.—This is the true citron.

CITRUS TREES.—(Continued).

GRAPE FRUIT.

MARSH'S SEEDLESS.—Medium size. Almost totally seedless. A good keeper and what we consider the best of the Grape Fruits.

TRIUMPH. — Of good flavour, but contains a number of seeds.

NARTJES.

CAPE NARTJE.— A selected sort, the best for export. Can be in every way recommended.

DANCY'S TANGERINE.— A similar variety to the Cape Nartje.

LATE CAPE NARTJE.—An excellent thin skinned yellow nartje of good size. Ripens very late.

OONSHU (Japanese Nartje).— This is a very hardy, strong growing variety of Nartje. It is the only variety of Nartje that will withstand a considerable amount of frost, and for that reason should be popular in many parts of the Union where other varieties fail.

OLIVE TREES.

Olives, being evergreen, are being packed and priced by us the same as for Citrus trees.

The nomenclature of Olives is indefinite. Therefore we are unable to extend our usual terms and Conditions of Sale to the varieties of the Olive.

We are stocking three varieties known as the best for oil producing, and the two best known for pickling.

The Olive is a tree likely to prove a commercial success in many parts of Africa. The trees withstand a considerable amount of drought, frost and strong winds. They will succeed in stony soils if not too sandy. They are less particular as to soils than are Fruit trees, only will not thrive on waterlogged lands.

Olive trees start bearing at about five years and continue bearing until they attain a very great age, extending to a century and more.

The varieties stocked are:—

FOR OIL:

LATE BLANQUETTE.—An excellent variety for all purposes. Ripens very late. Strong growing variety.

LECCINO (Manzanello)—Extensively cultivated in Italy. The most beautiful of olives, with pendulous, sweeping branches, bearing a large oblong fruit in great profusion, and one of the best for oil production, the quality of which is unsurpassed.

PIRAMIDALIS. — Tree of vigorous upright growth, regularly bearing heavy crops. Fruit large and fleshy.

FOR PICKLING:

ASCOLANA.—

SPANISH QUEEN.—

TESTIMONIALS.

The following are a few UNSOLICITED TESTIMONIALS selected from a long list of letters of appreciation.

M'SONNEDDI (S. Rhodesia).—"The trees we ordered arrived in excellent condition."

BENONI (Tvl.).—"The trees arrived here in excellent condition, and if they do not take it will be no fault of yours."

NAIVASHA (Kenya).—"The trees look splendid and I am very pleased with them."

MUNHAMADE (P.E.A.).—"The trees I got from you are all growing wonderfully."

PORT ELIZABETH (Cape).—"I have planted the trees, which arrived in excellent condition. I am very pleased with same."

BATHURST (West Africa).—"You will be pleased to know that the fruit trees arrived in excellent condition, although they took 4 weeks to reach me. Thank you for the perfect manner in which they were packed."

GERMISTON (Tvl.).—"I am very pleased to inform you that all the trees took and I am very proud of them. I can safely say that they are superior to those supplied by local nurserymen."

BONNIE VALE (Cape).—"I received the 1000 trees from you in very good order and I am very satisfied, because the trees look well and are strong."

KUILS RIVER (Cape).—"I cannot tell you how satisfied I am with the peach trees I had from you. They are all growing and are bearing already."

SALISBURY (S. Rhod.).—"The trees arrived in perfect condition and I am very pleased with them in every way."

WINDHOEK (S.W.A.).—"The quality of the Pickstone's Washington navel trees is very satisfactory. They were well packed and in perfect condition."

KAPIRI MPOSHI (N. Rhod.).—"The trees arrived in perfect condition, thanks to your excellent system of packing."

FLORIDA (Tvl.).—"The trees arrived in good condition and I am very pleased with them."

PORT ELIZABETH (Cape).—"The trees arrived in excellent condition, beautifully fresh and they look splendid."

CLOCOLAN (O.F.S.).—"I received the consignment of fruit trees in perfect order and am very satisfied indeed with all the trees you sent me."

SALISBURY (S. Rhodesia).—"I am very pleased to say that everyone of the Deciduous and Citrus trees are growing very well indeed and are a picture of perfect health. I will always recommend Pickstone's to friends and strangers."

ZASTRON (O.F.S.).—"Perhaps you will remember some three years ago I bought 60 trees from you and they are growing very well and have given good crops this year."

GEORGE (Cape).—"I am highly satisfied with the trees and am glad to say that none of them have died."

BLOEMHOF (Tvl.).—"We beg to acknowledge the arrival of the package of fruit trees in excellent condition, in spite of the fact of their being 7 days en route; the trees as far as appearance and size, give entire satisfaction, being a nice size and so robust. The packing was perfect."

JOHANNESBURG.—"I would like to mention that the trees I received from you last year are very healthy and making excellent progress."

LILONGWE (Nyasaland).—"The trees arrived yesterday and they were in excellent order. I am very pleased with their size and condition."

DORDRECHT (Cape).—"I was pleasantly surprised at the trees you sent me, true to your reputation for a good deal, and am very grateful to you for having gone out of your way to the extent you did to give me the best value for my money."

SALISBURY (S. Rhod.).—"The fruit trees arrived in excellent condition and I am very satisfied with them."

OTJIWARONGO (S.W.A.).—"The trees I had from you before are doing very well and I am very satisfied. All the trees are growing."

DELPORTS HOPE (Cape).—"I have today received the 100 Washington Navel Orange trees ordered from you and would like to let you know that I am highly satisfied with same. They are exceptionally well packed—the best method of packing I have ever seen. It is a pleasure to do business with you. Such honesty is not met with often."
